Drug Testing – Representational Activities

Random Drug Testing of Students Participating in Representational Activities

The Board recognizes that a student participating in representational activities under the influence of a drug endangers himself/herself and all other students. In order to protect the health and safety of all students and to help refer drug users to appropriate counseling and rehabilitative services, the Superintendent or designee shall establish a non-voluntary, random urinalysis drug testing program for all students participating in district representational activities.

The Superintendent or designee shall establish drug testing procedures that ensure appropriate individual privacy for students while maintaining the viability of the process. No punitive action shall be taken against any student who tests positive other than removing him/her from activities as prescribed in administrative regulations.

Revised 12/20/07

Representational activities are an integral part of our school curriculum and, as such, must contribute to the well-being of all who participate (“Participants”). Participants are reminded they represent the school and community, and their actions must be a credit to both. All school rules apply in all representational activities (“Activities”).

The District strongly opposes student or parent-sponsored activities that condone or promote the use of tobacco, alcohol or drugs. Parents are encouraged to make sure their students are not involved in the use of these substances.

1.0 SCHOLASTIC ELIGIBILITY (Athletics Only)

A student shall be eligible for all Activities if he/she meets the following requirements:

- 1.1. In order to be eligible for participation in athletic representational activities, a student in grades 9 through 12 must be enrolled in 20 semester credits of course work, and have earned a 2.0 GPA during the most recently completed grading period, (See CIF Bylaws for further regulations.) A waiver of the 2.0 GPA requirements will be permitted for any one quarter during a student's four years of high school (BP 6145).
- 1.2. The grade point average used to determine eligibility shall be based on grades of the previous grading period during which the student attended class at least a majority of the time. (Education Code 35160.5)
 - 1.2.1. The most recently completed grading period for entering 9th grade students will be the most recent GPA earned in the last school attended.
 - 1.2.2. When students are simultaneously enrolled in college classes for which they receive credit toward high school graduation, their college grades shall be included in the computation of their grade point average.
 - 1.2.3. Receiving an Incomplete shall have no effect on a student's academic eligibility as long as the resolution of the Incomplete would not lower his/her grade point average below 2.0. If the

resolution of an Incomplete could lower the student's grade point average to below 2.0, the student shall be considered ineligible until the Incomplete is removed and the grade point average determined.

- 1.3. When a student does not maintain 2.0 GPA, he/she is ineligible in the subsequent grading period to participate in athletic representational activities. To regain eligibility, a 2.0 GPA must be earned in a grading period. Eligibility will be based on quarter grades.
- 1.4 In the event that a student finds that he/she is academically ineligible to participate in athletic representational activities in the first semester of the upcoming year, he/she may request that current summer school grades be added to the grades received in the spring semester and that the total spring semester and summer school grades be used to determine eligibility for the first semester of the upcoming school year. Summer school grades officially placed on a student's transcript will be totaled with the grades from the previous grading period and divided by the total number of courses. If a course is repeated, only the higher of the two grades will be used for calculations.
- 1.5. Students with any "F" grades must also maintain minimum progress towards graduation in order to meet eligibility requirements.
- 1.6. Students are expected to maintain good citizenship and conduct themselves in an appropriate manner while in class and on campus, and while representing the school during any Activity. Failure to do so may result in ineligibility.

2.0 DOCUMENTARY ELIGIBILITY (Athletics Only)

- 2.1 Athletic Health Screening Examination Record, parent permission forms, insurance forms, emergency consent forms, authorization for student drug/alcohol testing, bus rules and other forms as required shall be recorded, and on file in the School Office. Parent or legal guardian signature is required.
- 2.2 **An annual physical examination is required before a student may try out, practice or participate in interscholastic athletic competition.** A student will be excused from the physical examination only in compliance with Education Code provisions concerning Parents' Refusal to Consent. It is recommended that the physical be passed prior to purchasing insurance.
- 2.3 **A physical examination is good for one calendar year.**
- 2.4 A prospective athlete shall either secure student insurance or have his/her parent or legal guardian complete the Parent's Certification Statement of

Responsibility for Athletic Insurance. Proof of payment for student insurance or the statement of responsibility shall be on file at the school.

2.5 The District expects that coaching staff will provide an orientation for parents at the start of each sport season.

3.0 DOCUMENTARY ELIGIBILITY (other than athletics)

3.1 Appropriate parent permission forms, including authorization for student drug/alcohol testing, and emergency forms shall be on file at the school. Parent or legal guardian signature is required.

3.2 The extra-curricular advisor shall determine rules concerning appropriate conduct for the specific activity.

4.0 ABSENCE FROM SCHOOL

4.1 Absence from school on the day of a scheduled Activity shall result in denial of the privilege to participate. Students are required to attend a minimum of four (4) periods to be considered eligible for participation in the Activity. Exceptions may be granted by the school administration on a case-by-case basis. Participation in Saturday or holiday events will be affected by attendance the last school day preceding the event.

5.0 USE OF TOBACCO, ILLEGAL DRUGS OR ALCOHOL (during season of activity)

5.1 The Shasta Union High School District believes that Activities are an integral part of the school curriculum and, as such, must contribute to the physical and mental health of the Participants. To accomplish this, the District has enacted policies related to drug and alcohol use, both at school and outside of school activities.

5.2 In order to provide for the health and safety of the Participants, to provide a legitimate reason for students to say "no" to drug use, and to provide an opportunity for those taking drugs to receive help in locating a program of assistance, the District is conducting a mandatory random drug testing program for Participants. The program is designed to create a safe, drug-free environment for Participants and assist them in getting help when needed.

5.3 Participants who are under the influence, or in possession, of illegal drugs or alcohol are subject to this policy at all times (i.e. during school, school activities, and outside of school). Participants who are under the influence or in possession at school or school activities are subject to school consequences as well as the consequences of BP and AR 5131.61, Random Drug Testing of Students Participating in Representational Activities.

5.4 Participants who attend an illegal activity (drugs or alcohol are being served to minors) are also subject to this policy even if they do not use drugs or alcohol.

5.5.8 Positive Test: The Participant's sample will first be tested using an Instant Technologies Icup to determine an initial positive or negative.
